Akron, OH 44333

BATH TOWNSHIP
RECEIVED
2010 JUL 26 P 3: 08

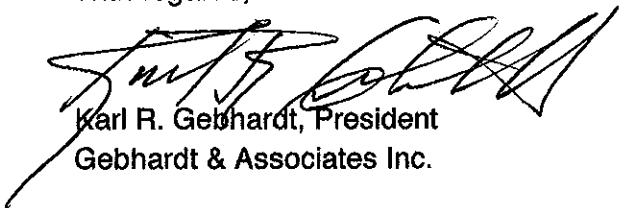

To Whom It May Concern: *Bill*

This letter is a follow-up to the phone call or message you received regarding the proposed right of way maintenance on the NorthCoast Natural Gas Transmission natural gas pipeline easement that runs through your jurisdiction. The attached map will provide you with the general proximity of the easement.

NorthCoast representatives are beginning to contact, in person or through a door hanger if they cannot make personal contact, all landowners on which the easement maintenance will be taking place. The clearing will be done mechanically; no chemical defoliant will be used. The clearing will be restricted to the legal right of way including over-hanging branches to allow for future aerial inspection of the easement.

In the event you receive inquiries or have questions regarding the project, the NorthCoast local project manager is Mr. William Cagle. He can be reached at 281-770-3143. Thank you in advance for your cooperation.

With regards,

Karl R. Gebhardt, President
Gebhardt & Associates Inc.
