Re: Proposed Telecommunications Tower
T-Mobile #CL51-345
North Revere Road
Akron, OH 44333

Dear Sir or Madame:

On behalf of T-Mobile USA, Apex Companies, LLC (Apex) is evaluating the above referenced property for the proposed installation of a cellular telecommunications tower.

For such a proposed undertaking, the Federal Communications Commission (FCC) applicant is required to consider whether the action may affect historic properties in accordance with §1.1307(a) (4) and 36 CFR Part 800 (Section 106). Historic properties are defined as districts, sites, buildings, structures or objects, significant in American history, architecture, archeology, engineering or culture that are listed, or are eligible for listing in the National Register of Historic Places. As part of the process, Apex is submitting information regarding this undertaking to the State Historical Preservation Office for their review.

The Nationwide Programmatic Agreement for Review Under the National Historic Preservation Act, executed by the FCC (NPA, January 4, 2005), further amends the Section 106 requirements of the FCC/applicant to include notification of local government, and local zoning or historic preservation societies of the planned undertaking.

Notice is hereby given that T-Mobile USA is considering the placement of a telecommunications site at North Revere Road, Akron, OH 44333. This proposal consists of the installation of a 20' cellular telecommunications antennae placed atop an

Environmental Engineering Water Resources

Facility Services Construction Services

exiting 100' utility tower in a utility corridor. A compound approximately 28.3' X 45' in size will house the associated equipment.

Anyone with concerns about substantial effects of this project on historic properties is invited to submit comments in writing to the following address:

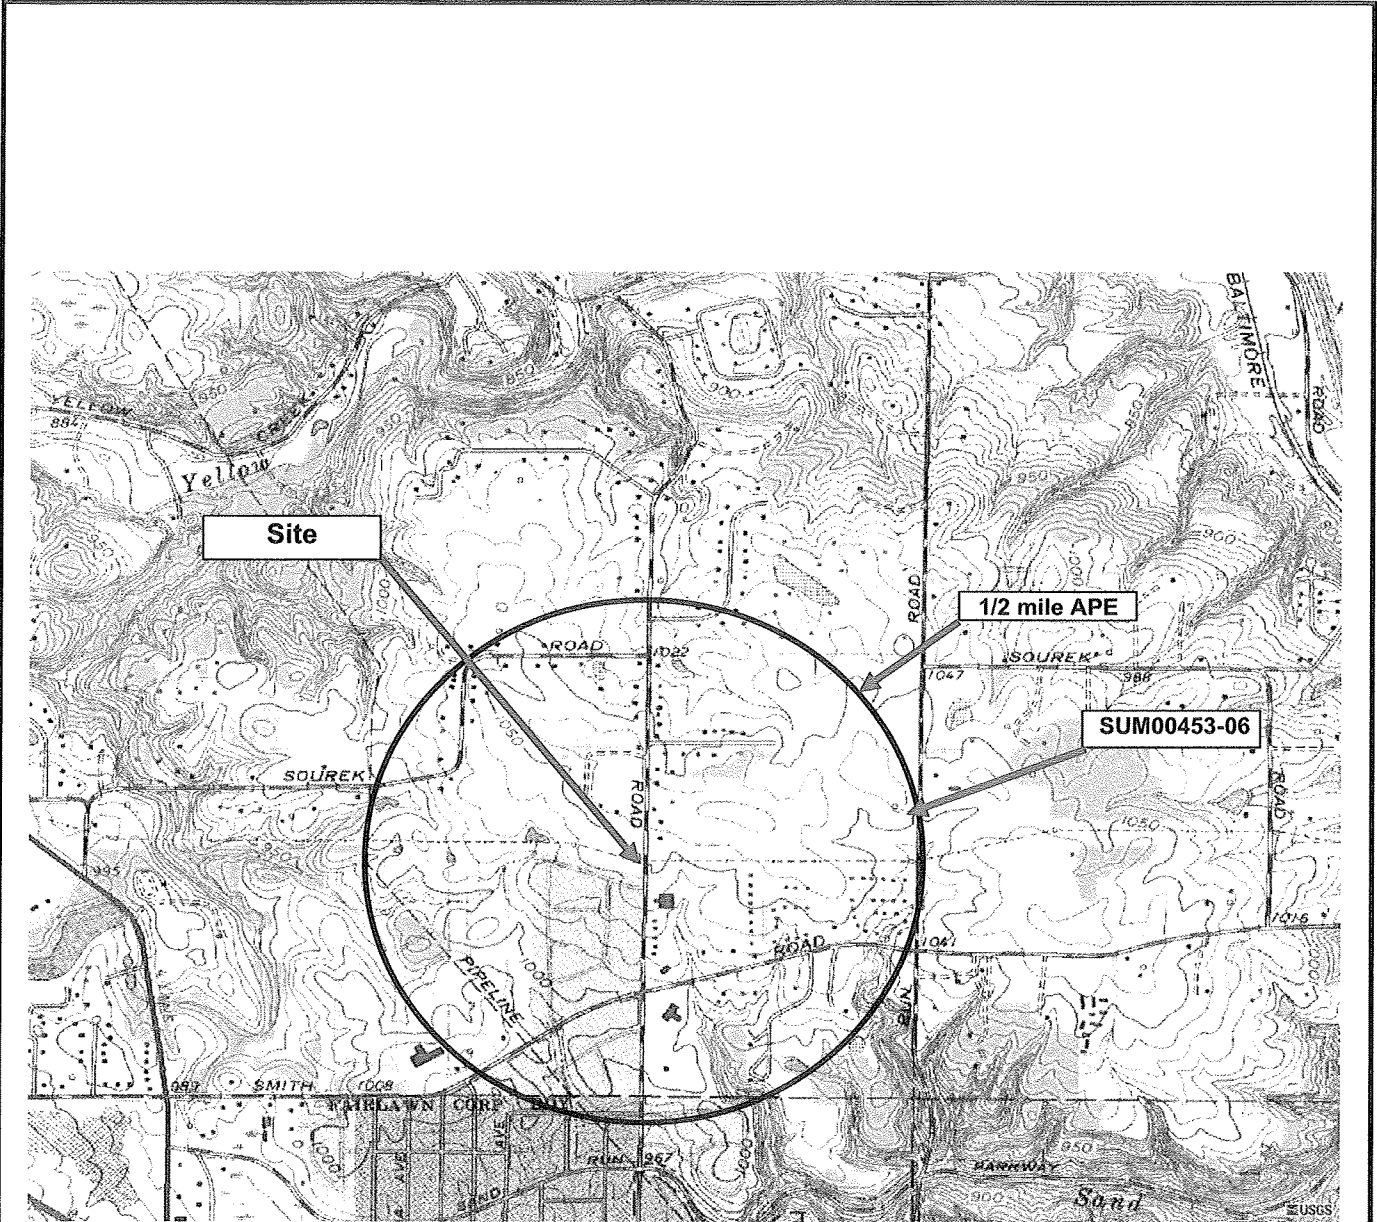

Apex Companies, LLC
